

Kyle Corlett

T1A2 - Portfolio

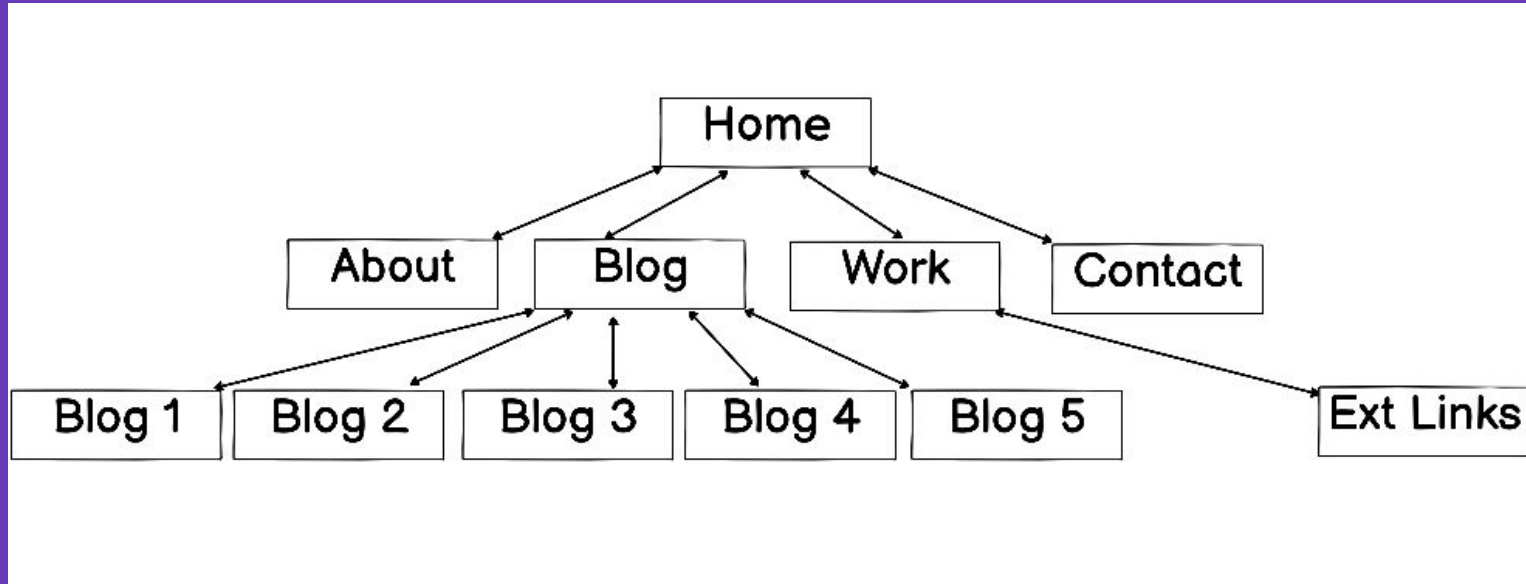

About my website

My portfolio website is to show who I am to potential employers and clients. It shows responsive design and workflow. I based my design of a few portfolios I found online and a lot of the elements were just because I wanted to try work on developing features.

Challenges

- Trying to individual and not copy another person's style
- Finding free to use images

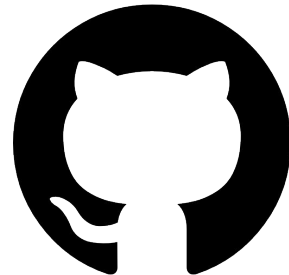

SiteMap

Tech Stack Used

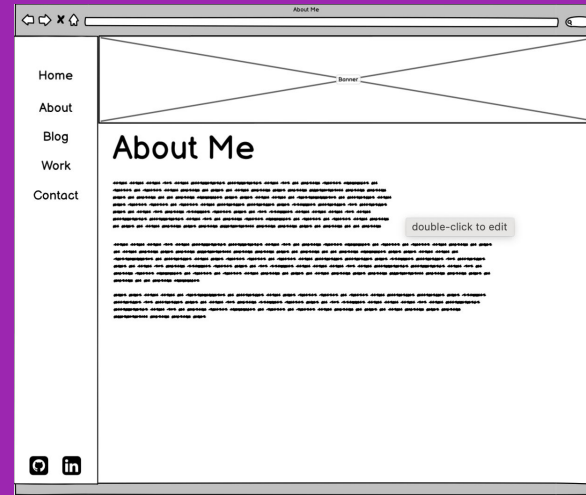

git

Home Page

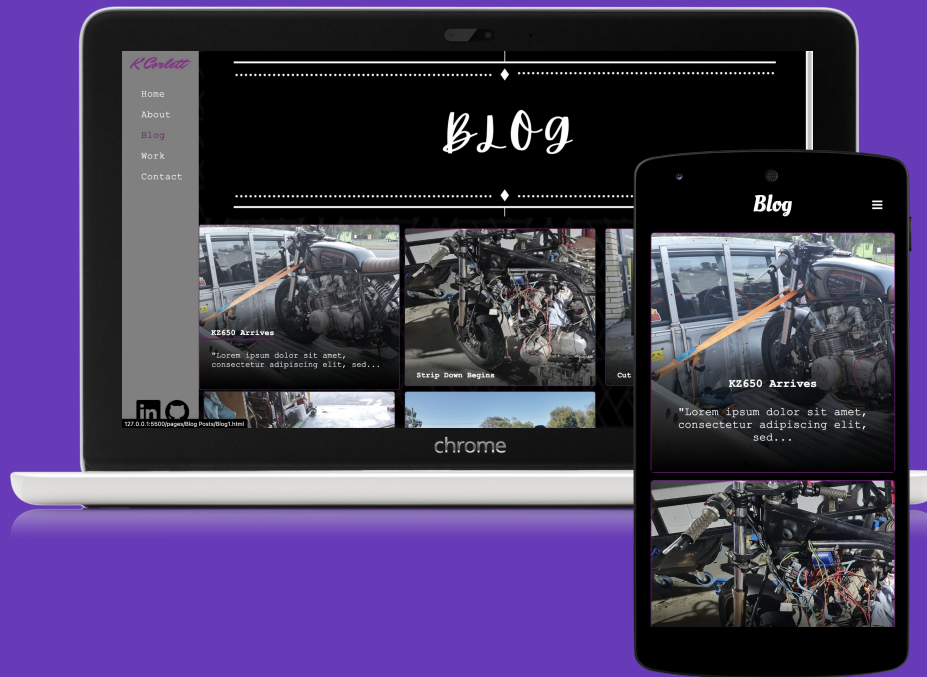

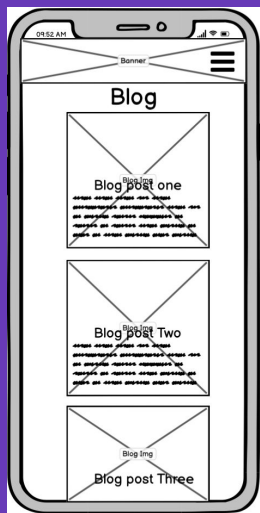

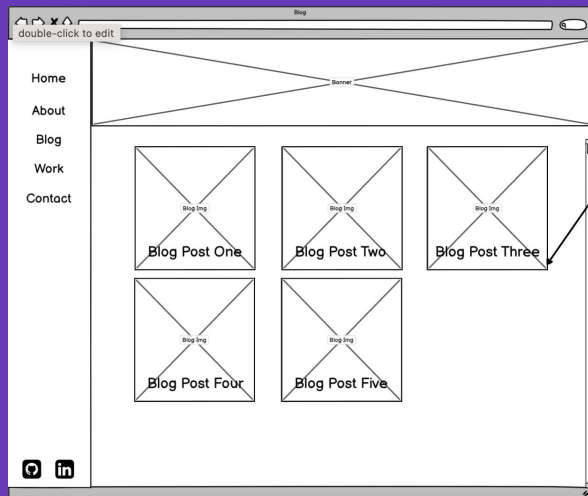

- Media queries separate css
- Responsive
- Menu changes

- <div><nav><form>

when your lecturer asks if you have
any questions

Questions

Can you repeat the part of the stuff
where you said all about the things?
